Toner Plastics 3D printing filament is produced for several of the industry's leading desktop printer manufacturers, 3D printing supply companies and other filament resellers. We offer our own brand of 3D filament, private label for our filament reseller customers with their brand, and even provide production and logistics services for other 3D filament manufacturers. Our products are made in the USA at our Massachusetts extrusion factory which has been in business for 27 years. Reasons why people work with us include our superior quality, excellent customer service, ease of doing business, and our commitment to the success of our customers.
